

Serial Number 10/092,152  
Amendment Under 37 CFR 1.116  
Reply to Final Rejection Dated April 21, 2004

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-28 (canceled)

Claim 29 (Currently amended): A multilayered film comprising:

- a) a nylon film having first and second surfaces which comprises a layer consisting essentially of nylon 6, nylon 66, nylon 6/6,6 or a combination thereof;
- b) a silicone oil on the first surface of the nylon film;
- c) a sealant film on the second surface of the nylon film, which sealant film comprises:
  - i. a polyethylene layer having first and second surfaces, which polyethylene layer either contains an antifog composition, or has an antifog composition coated on the first surface thereof;
  - ii. a first nylon layer on the second surface of the polyethylene layer, which nylon layer consists essentially of nylon polymer;
  - iii. an optional adhesive tie layer between said polyethylene layer and said first nylon layer, which optional adhesive tie layer attaches the first nylon layer to the polyethylene layer;
  - iv. an ethylene vinyl alcohol layer on the first nylon layer, which ethylene vinyl alcohol layer consists essentially of ethylene vinyl alcohol; and
  - v. a second nylon layer consisting essentially of nylon polymer on the ethylene vinyl alcohol layer, said second nylon layer being attached to said second surface of said nylon film a).

Claim 30 (original): The film of claim 29 wherein at least one of the first and second nylon layers is corona treated.

Claim 31 (original): The film of claim 29 wherein the silicone oil comprises a surface active lubricant.

Claim 32 (original): The film of claim 29 wherein the silicone oil comprises a polydimethylsiloxane material.

Claim 33 (original): The film of claim 29 wherein the first and second nylon layers comprise nylon 6, nylon 66, nylon 6/6,6 or a combination thereof.

Claim 34 (original): The film of claim 29 wherein the polyethylene layer comprises a linear low density polyethylene.

Claim 35 (original): The film of claim 29 wherein the antifog composition is contained within the polyethylene layer.

Claim 36 (original): The film of claim 29 wherein the antifog composition is coated on a surface of the polyethylene layer.

Claim 37 (previously amended): The film of claim 29 wherein the nylon film comprises a first nylon layer, an ethylene vinyl alcohol layer on a surface of the first nylon layer, and a second nylon layer on a surface of the ethylene vinyl alcohol layer.

Claims 38-60 (canceled).

Claim 61 (previously presented): The film of claim 29 wherein said nylon film comprises nylon 666.

Serial Number 10/092,152  
Amendment Under 37 CFR 1.116  
Reply to Final Rejection Dated April 21, 2004

Claim 62 (previously presented): The film of claim 61 wherein said first and second nylon layers comprise nylon 6.

Claim 63 (previously presented): The film of claim 61 wherein said second nylon layer is attached to said second surface of said nylon film via an intermediate adhesive.

Claim 64 (previously presented): The film of claim 29 wherein said first and second nylon layers comprise nylon 6.

Claim 65 (previously presented): The film of claim 29 wherein said nylon film comprises nylon 666 and said first and second nylon layers comprise nylon 6.

Claim 66 (previously presented): The film of claim 65 wherein said silicone oil is a food grade silicone oil.

Claim 67 (previously presented): The film claim 29 which has an oxygen transmission rate of about 0.5 cc/100 in<sup>2</sup>/day or less at 65% relative humidity at 20°C.
